

The  
Academy  
of Performing Arts

August 1, 2000

To Whom It May Concern,

It is with sincere gratitude for a job well done that I am able to recommend Parks Wilson and his staff, especially Mark Bay. My business, The Academy of Performing Arts, is located at 824 Executive Drive. Through every phase of the planning, approval, and construction of the building, I was very pleased. I found Mr. Wilson and his staff to be always approachable. If Mr. Wilson was not in the office when I called, his return phone call was always prompt. I never had to ask him twice to take care of anything and on the many occasions that I asked him something that wouldn't really be considered his job, he was quick to offer to make phone calls or whatever it took to help me. I found Mr. Wilson to be an honest, truthful, friendly person and a very competent builder.

Since I dealt more with Mark on a day-to-day basis, I feel it is also important to mention that Mr. Wilson could not possibly have found a better person to represent him. Mark is an excellent people person and deals with everyone in a quiet, knowledgeable manner. He constantly goes above and beyond. An example that comes to mind was when I dropped off the assorted parts of my mailbox and went out of town. When I returned, it was assembled and installed on the street. I left a message on his cell phone that I'd like a certain key on Monday and he dropped off the key within the hour on a Saturday.

I look forward to working with Mr. Wilson and his staff on the other buildings I hope to be constructing as part of my dance studio. They were a pleasure to work with.
