To Whom It May Concern:

This letter is being written to recommend Wilson & Company, Inc., General Contractors, to you for your building projects.

Wilson & Company, Inc. was the contractor on our new lakefront home on Lake Mills. Mr. Parks Wilson and his company exceeded our expectations in building our home after the the first builder defaulted. The original builder left us with numerous problems to handle ( i.e. permitted house plans to wide for the lot, liens on the house and property, bounced check to Seminole County Building Department, Department of Environmental Protection, well-point ...). I had to rebid out the construction of the home and most builders did not even want to bid on the project. Parks Wilson went above and beyond the call of duty and worked with the original designer to redesign the home from a one-story to a two-story that incorporated most of the original floor plan and also built the second floor into the roof structure.

Mr. Parks Wilson is a man of moral character and integrity. He and his company did everything that was promised within the budgets which were given to them. We found that Mr. Wilson placed our interests as the highest of his company and are extremely pleased with the quality construction and cost of our home. We would consider using Wilson & Company, Inc., if we were to build again.

We give our highest recommendation to Parks Wilson and Wilson & Company, Inc. Please feel free to contact me should you have any questions that I may answer.

Sincerely,

A handwritten signature in cursive script that reads "William Merckel".
