Dear Sir:

About a year ago this month, we began interviewing contractors for the construction of our 6,000 sq ft professional building in Oviedo. After much scrutiny, Wilson & Company, was awarded the contract. We invested a lot of time and effort checking references on all the contractors who submitted bids on the project. The decision to use Wilson & Co was obvious.

We feel the project was a total success. At all times we were kept informed of all aspects of the construction. Our questions and/or concerns were always addressed in a prompt, courteous and professional manner. There was never a time when a phone call or page went unanswered.

The reputation of Wilson & Co also attributed to our success. As with any project, there will be government agencies that have to be dealt with. We went to many meetings at City Hall. Parks Wilson was always treated with respect and in our opinion a master of compromise. When a problem occurred it was solved in a win/win manner and all parties were satisfied. The various inspectors at Oviedo City Hall respect Parks Wilson because of the quality craftsmanship he demands from his subcontractors.

If we decide to build another office building our choice will be Wilson & Co. We would welcome anyone to come by our project for a tour of our offices which City Officials have called "The most beautiful building in Oviedo!".

Sincerely,

Richard E. DeCantis
