To Whom It May Concern:

It is with great confidence that this letter of recommendation for Wilson & Company, Inc. is written. First Baptist Church of Kissimmee began working with Wilson & Co in February 2009, when they were selected to construct Phase I of our Family Life Center. Mark Bay, the Project Manager was able to answer every question honestly and openly, during weekly construction meetings. He is knowledgeable, positive, and dedicated. During the course of the construction process, Wilson & Co performed professionally and kept representatives of First Baptist Church informed when unknown challenges occurred. Their input was greatly appreciated throughout the process.

The Family Life Center, located on the north side of our property at 1700 N. John Young Parkway, Kissimmee, FL has been a challenge to build debt-free in today's economy. However; Wilson & Co understood the importance of adhering to a strict budget and our goal of being good stewards of our member's donations.

Phase I has been completed at the cost of \$917,320.00, and we look forward to starting Phase II in the near future.

In summary, First Baptist Church of Kissimmee would give Wilson & Co a very high recommendation for future projects. We believe that their involvement aided in creating a very successful construction of Phase I of our Family Life Center.

Sincerely,

Mark Ferguson, Sr.  
Trustee  
First Baptist Church of Kissimmee
