Dear Parks:

As I stated in our initial meeting, after the bid process, of being quite impressed with your presentation to me, I still remain very positive in that opinion. Even though we endured the now infamous '04 Hurricane Season we have been enjoying our new facility more than anticipated.

We thank you for your diligence, especially "our" superintendent Brock Wagner, for the professional manner in managing the job, and the consideration in constructing our facility in the quality we were expecting.

Thank you again.

Sincerely,
