July 16, 2008

Dear Parks,

I just wanted to make a comment about your company's performance in the construction of our gymnasium. It was great! Your team of Barry, Bear, and Matt, who were overseeing the project, left me with the impression that they were working for me and not Wilson & Company. They were constantly in touch with me and were always looking out for my best interest. All of my concerns were addressed as if they were their own personal concerns and they always were striving to see that I was completely satisfied with the outcome. In addition, we have received numerous favorable comments from individuals about the appearance and quality of the building. If in the future you would like to show prospective clients our gym, feel free to do so. You have earned it.

Thank You

Thomas E. Phillips PhD
